Incorporated in Papua New Guinea A.R.B.N. 007 497 869

### The Company

From 1972 until 1989 Bougainville Copper Limited operated a large open pit mine and processing facility at Panguna on Bougainville Island in the North Solomons Province of Papua New Guinea producing copper concentrate containing significant quantities of gold and silver. On 15 May, 1989 production was brought to a halt by militant activity.

In the seventeen years before cessation of operations in 1989 the mine had produced concentrate containing 3 million tonnes of copper, 306 tonnes of gold and 784 tonnes of silver. The production had a value of K5.2 billion which represented approximately 44% of Papua New Guinea's exports over that period. Contributions to the National Government in the form of taxes, duties and dividends were approximately 17% of internally generated Papua New Guinea Government revenue during that time.

A total of K1 088 million was contributed to the National Government which represents 62% of the net cash generated by the project between 1972 and 1989. In addition, payments to the North Solomons Provincial Government and Panguna landowners, together with provisions made since 1990, amounted to K114 million. Further, the company's presence in the North Solomons Province had promoted the development of significant local business enterprises to provide goods and services required for the mining operation and for the residents of the province.

Company training programs for some 12 000 employees, including approximately 1 000 completing full trade apprenticeships and some 400 completing graduate and post graduate studies, had previously resulted in considerable progress in the localisation of the company's employees and also added significantly to the number of skilled workers elsewhere in the country's work-force. At the end of 2004, the company had no employees. The activities of the company are being managed on a contracted services basis by a small team of Rio Tinto Minerals (PNG) Limited staff based in Port Moresby.

Since the mine closed the company has retained, in good standing, its mine lease and other leases on Bougainville. Five years ago the company announced a change in strategic direction. Rather than maintain readiness to redevelop the mine the company announced its desire to dispose of the Bougainville

assets. It has developed a portfolio of cash and equities, including investments in PNG projects.

Bougainville Copper Limited has told the National Government that it is ready to discuss disposal of the Bougainville assets when Bougainville leaders and the National Government consider it appropriate.

Bougainville Copper Limited is owned 53.58% by Rio Tinto Limited. The Papua New Guinea Government owns 19.06% while public shareholders hold the remaining 27.36% of the share capital.
